

Membership Drive 2006 Begins!

Once again, it is time for our annual membership drive. You can do your part by actively supporting the fire company through regular donations, support of fund raising activities and by joining the organization. Two membership levels are available:

Active Firemen and/or Medical Quick Response Personnel members - \$ 5.00 / year and Social members - \$ 2.00 / year

Fill out and clip the lower part of this letter and return it in the self addressed envelope with your check. This year, all active members will be required to submit one of our new member applications. Those indicating Active Fire Personnel will receive a copy of our membership application via mail. Please fill out and return as soon as possible.

Everyone has the opportunity to

purchase one of the following gym memberships: Family - \$25/year Individual - \$15/year.

Gym memberships help to defray the cost of operating and maintaining the facility as well as controlling access. Those purchasing a gym membership will have access to the facility on scheduled open nights. Though you may join at anytime, annual memberships are due by January 31,2006.

Fire Truck Project

After much work, planning and fundraising, the new fire truck was ordered in August of 2005. Though grants helped the company avoid a large amount of debt, the support of community made it possible to really get the project off the ground. Thanks to all who have made this possible.

The Truck Committee specified that the new truck would have a 1500 gpm pump, and a 1000 gallon water tank. For the first time foam will be available onboard.

4 Guys of Meyersdale, PA was selected as the manufacturer for the new truck. The company was very satisfied with its tanker purchased from 4 Guys in the past and wanted to have a local manufacturer to facilitate maintenance if necessary.

The truck pictured here is a recent truck built by 4 Guys which is very similar to the fire truck ordered. The truck chassis was delivered in November 2005 and production will begin in January 2006. Current delivery is scheduled for April of 2006
